Fuel Surcharge Allowance Appendix

Effective Date: _____

The TDIS Fuel Surcharge Program (FSC) will begin when the U.S. Department of Energy's National Average price of diesel fuel reaches \$1.035 per gallon.

TDIS will take the U.S. Department of Energy's national average price of diesel from the U.S. Energy Information Web site on Mondays and will automatically add the appropriate surcharge allowance for a one-week period beginning on Sunday of the Following week and ending on Saturday of the that same week. When a DOE observed holiday falls on Monday and no index is reported, the DOE index published the next day will apply.

The Fuel Surcharge Program is effective per the date above and shall renew automatically from year to year. Any changes or cancellations to this agreement must be in writing and signed by both parties. Shipper acknowledges that no formal notice is required to implement the surcharge when the DOE National Average exceeds \$1.035. Every \$0.05/gallon = 0.05% surcharge. The same formula will apply if fuel levels exceed the table below.
